(Incorporated in Malaysia)

DIRECTORS' REPORT for the financial year ended 31 December 2022

The directors have pleasure in submitting their annual report to the Members together with the audited financial statements of the Group and the Company for the financial year ended 31 December 2022.

OPERATIONS

Principal activities

The principal activities of the Company are:

- (a) investment holdings; and
- (b) provision of management services.

The principal activities of the subsidiaries are stated in Note 15.1 to the financial statements.

There have been no significant changes in the nature of the principal activities of the Company and its subsidiaries during the financial year.

Results	<u>Group</u> RM	<u>Company</u> RM
The profit/(loss) after taxation amounted to	99,813	(21,871)
Amount attributable to minority interests		
Profit/(Loss) attributable to shareholders of the Company	99,813	(21,871)
From/To which must be deducted/added accumulated (losses) brought forward from the previous financial year of	(78,116,785)	(82,684,964)
Leaving/Resulting in an amount of accumulated (losses) to be carried forward to the next financial year of	(78,016,972)	(82,706,835)

Items of an unusual nature

The results of the operations of the Group and the Company for the financial year were not, in the opinion of the directors, substantially affected by any item, transaction or event of a material and unusual nature other than the results from investing activities as reported in the Group statement of comprehensive income.

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors, to affect substantially the results of the operations of the Group and the Company for the current financial year.

Reserves and provisions

There were no material transfers to or from reserves or provisions during the financial year.

Dividend

No dividend has been paid or declared by the Company since the end of the previous financial year.

The directors do not recommend any dividend for the current financial year ended 31 December 2022.

Bad and doubtful debts

Before the financial statements of the Group and the Company were made out, the directors took reasonable steps to ascertain that action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and that all known bad debts had been written off and adequate allowance had been made for doubtful debts.

At the date of this report, the directors of the Group and the Company are not aware of any circumstances that would render the amount written off for bad debts or the amount of allowance for doubtful debts in the Group and the Company inadequate to any substantial extent.

Current assets

Before the financial statements of the Group and the Company were made out, the directors took reasonable steps to ascertain whether any current assets, other than debts, were unlikely to realise in the ordinary course of business their values as shown in the accounting records of the Group and the Company and to the extent so ascertained were written down to an amount that they might be expected so to realise.

At the date of this report, the directors are not aware of any circumstances that would render the values attributed to the current assets in the financial statements of the Group and the Company misleading.

Valuation methods

At the date of this report, the directors are not aware of any circumstances which have arisen which render adherence to the existing methods of valuation of assets or liabilities of the Group and the Company misleading or inappropriate.

Contingent and other liabilities

At the date of this report, there does not exist:

- (i) any charge on the assets of the Group or the Company that has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liability in respect of the Group or the Company that has arisen since the end of the financial year.

No contingent liability or other liability of the Group or the Company has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may substantially affect the ability of the Group and the Company to meet their obligations as and when they fall due.

Change of circumstances

At the date of this report, the directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Group and the Company, that would render any amount stated in the financial statements misleading.

SHARE CAPITAL

Issue of shares

During the financial year, no issue of shares was made by the Company.

Option

During the financial year, there was no option granted to take up unissued shares of the Company.

DIRECTORATE

Directors

The directors who served since the financial date of the last annual report are as follows:

Sow Yeng Chong Leong Kim Foo

Shareholdings and interests in shares

The shareholdings and interests in shares in the Company of those persons who were directors at the end of the financial year were as follows:

Number of ordinary shares held during the financial year

	As at the			As at the
Shareholdings in	beginning,			end,
names of directors	1.1.2022	Bought	<u>Sold</u>	31.12.2022
<u>Company</u>				
Sow Yeng Chong	20,000	-	-	20,000
Leong Kim Foo	27,000		-	27,000

				Group
				<u>2022</u>
				RM
Director's remuneration and co	osts			
- Salaries, bonus and allow	wances			90,000
- Employees Provident Fu	ınd			3,600
- SOCSO				593
				94,193

Benefits

Since the end of the previous financial year, no director of the Company has received or become entitled to receive any benefit by reason of a contract made by the Company or a related corporation with the director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest.

Neither during nor at the end of the financial year, was the Company a party to any arrangement whose object is to enable the directors to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

AUDITORS

The audit fee payable to the auditors, T. C. Liew & Co., Chartered Accountants, for the financial year amounted to RM3,500.

The auditors have indicated their willingness to continue in office.

Signed in accordance with a resolution of the directors on behalf of the Board:

SOW YENG CHONG Director LEONG KIM FOO Director

Date: 15 May 2023 Kuala Lumpur, Malaysia.

KUMPULAN BELTON BERHAD

(Incorporated in Malaysia)

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS of KUMPULAN BELTON BERHAD

FINANCIAL STATEMENTS for the financial year ended 31 December 2022

Report on the Financial Statements

Opinion

We have audited the financial statements of Kumpulan Belton Berhad, which comprise the statements of financial position as at 31 December 2022 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies as set out on pages 10 to 62.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2022, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the Directors' Report but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors of the Group and of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- (d) Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.

Company No. 198401014534

(127090 H)

(e) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and

events in a manner that achieves fair presentation.

(f) Obtain sufficient appropriate audit evidence regarding the financial information of the

entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and

performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in

internal control that we identify during our audit.

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act, 2016 in Malaysia and for no other purpose. We do not assume

responsibility to any other person for the content of this report.

KUMPULAN BELTON BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS for the financial year ended 31 December 2022

1. GROUP

The Group comprises the Company and its subsidiaries listed in Note 15.1 to the financial statements.

The financial statements were authorised for issue by the Board of Directors on 15 May 2023.

2. GENERAL

The Company was incorporated in Malaysia as a public company limited by shares. It is resident in Malaysia with its registered office situated at Suite 729, 7th Floor, Menara Hai-O, Jalan Bukit Bintang, 55100 Kuala Lumpur Wilayah Persekutuan.

3. PRINCIPAL ACTIVITIES

The principal activities of the Company are:

- (a) investment holdings; and
- (b) provision of management services.

The principal activities of the subsidiaries are stated in Note 15.1 to the financial statements.

There have been no significant changes in the nature of the principal activities of the Company and its subsidiaries during the financial year.

Place of business

The principal place where the business activities of the Company are carried out is situated at Lot 10, Sungai Siput Light Industrial Estate, 31100 Sungai Siput (U), Perak Darul Ridzuan.

4. PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Group and the Company have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS") and the provisions of the Companies Act, 2016.

These financial statements cover a twelve-month financial year from 1 January 2022 to 31 December 2022 to provide information about the:

- (a) financial performance;
- (b) financial position;
- (c) equity; and
- (d) cash flows

of the Group and the Company on their operations.

All the amounts in these statements are stated in Ringgit Malaysia ("RM") unless otherwise stated.

5. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted by the Group and the Company, which are consistent with those in the previous financial year unless otherwise stated, in preparation of the financial statements are stated in paragraphs 5.1 to 5.18 below:

5.1 Basis of accounting

The financial statements of the Group and the Company have been prepared using cost and fair value bases.

5.2 Significant accounting estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

5.2.1 <u>Judgements made in applying accounting policies</u>

There are no significant areas of critical judgement in applying accounting policies that have any significant effect on the amount recognised in the financial statements.

5.2.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(i) Depreciation and amortisation of equipment, furniture and fittings

The depreciable costs of equipment, furniture and fittings are allocated on a straight line basis over their expected useful lives. Management estimates the useful lives of these assets to be within 5 to 20 years. Changes in the expected level of usage and technological developments could impact the economic useful lives and residual value of these assets.

(ii) Net realisable value of inventories

The management reviews for damaged, slow-moving and obsolete inventories. This review requires judgements and estimates. Possible changes in these estimates could result in revision to the valuation of inventories.

(iii) Impairment of loans and receivables

The Group and the Company assess at each reporting date whether there is any objective evidence that a financial asset is impaired. To determine whether there is objective evidence of impairment, the Group and the Company consider factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments. Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience of assets with similar credit risk characteristics.

5.3 Adoption of new and revised financial reporting standards

On 1 January 2022, the following amended MFRs are mandatory for annual financial periods beginning on or after 1 January 2022:

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2022

- Amendments to MFRS 116: Property, Plant and Equipment
 - Proceeds before Intended Use
- Annual Improvements to MFRS Standards 2018 2020
- Amendments to MFRS 137: Provisions, Contingent Liabilities and Contingent Assets (Onerous Contracts - Cost of Fulfilling a Contract)

The adoption of the above accounting standards did not have any material impact on the Company's financial statement.

5.4 Standards issued but not yet effective

The Company will be applying the following standards, interpretations and amendments that have been issued in the respective financial period as set out below:

Effective for financial periods beginning on or after

• Amendments to MFRS 101: Classification of Liabilities as Current or Non-current

1 January 2023

• Amendments to MFRS 101: and MFRS Practice Statement 2:

Disclosure of Accounting Policies 1 January 2023

• Amendments to MFRS 108: Definition of Accounting Estimates 1 January 2023

 Amendments to MFRS 112: Deferred Tax related to Assets and Liabilities arising from a Single Transaction

1 January 2023

• Amendments to MFRS 101: Non-Current Liabilities

with Covenants 1 January 2024

The directors expect that the adoption of the standards above will have no material impact to the financial statements in the period of initial application.

5.5 Basis of consolidation

The Group financial statements are prepared by consolidating the financial statements of the Company and all its subsidiaries made up to the same financial year.

All subsidiaries are consolidated using the acquisition method of accounting.

Under the acquisition method of accounting, the difference between the cost of investments and the underlying value of net assets acquired at the date of acquisition is shown in the Group statement of financial position as goodwill arising on consolidation.

All significant intragroup transactions and balances are eliminated on consolidation and the group financial statements reflect external transactions only.

The carrying amount of goodwill is tested for impairment on an annual basis in accordance with MFRS 10 "Impairment of Assets".

5.6 Revenue

Revenue is recognised in the financial statements as follows:

5.6.1 Manufacturing and trading

Invoiced value of net sales of goods delivered to customers;

5.6.2 Services

Invoiced value of services of machining, heat treatment and other related services rendered to customers;

5.6.3 Investments

Rental income on straight line basis over the term of the relevant tenancy agreement; and

5.6.4 Others

Rental income and sundry interest on receipt basis.

5.7 Investments in subsidiaries

Subsidiaries are companies in which the Company holds more than half of their issued share capitals and controls the composition of their boards of directors with the power to govern their financial and operating policies so as to obtain benefits from their activities.

Investments in subsidiaries are stated at cost less impairment loss, if any.

5.8 <u>Investment properties</u>

The Group recognises a land, building (including a floor of a building), or both land and building, including a property under construction, as an investment property if it is held for capital appreciation, rental income or both. An investment property is recorded at cost on initial recognition. Cost of an investment property comprises purchase price plus all directly attributable cost incurred to bring the property to its present location and condition intended for use as an investment property. Cost of a self-constructed investment property comprises all direct and indirect construction costs but exclude internal profits.

For the purpose of subsequent measurement, items of equipment that are irremovable and items that are physically attached to a building, such as lift, elevators, electrical system and air-conditioning system, are treated as an integral part of the property. The Group uses the fair value model to measure an investment property after initial recognition if the fair value can be measured reliably without undue cost or effort. Fair value is determined by reference to a quoted market price, if observable. Changes in fair value of an investment property are recognised in profit or loss for the periods in which they arise. All other investment property is measured at cost less accumulated depreciation and impairment loss.

Freehold land is stated at cost less impairment loss, where applicable. No depreciation is made on freehold land.

Upon the disposal of an investment property, the difference between the net disposal proceeds and the carrying amount is charged or credited to profit or loss.

5.9 Properties, plant, equipment and fittings and depreciation/amortisation

Factory plant, equipment and fittings are stated at valuation and at cost less accumulated depreciation and impairment loss, where applicable.

All these assets are depreciated and amortised at rates calculated to write off the book values to their residual values over their expected economic useful lives.

The depreciation method used and principal annual rates used for this purpose are as follows:

		%
	Method	Per annum
Factory plant and equipment	Straight line	5 - 20
Motor vehicles	Straight line	20
Office equipment, furniture and fittings	Straight line	5 - 10

The carrying amounts of these assets at the statement of financial position date are reviewed by the directors to determine whether there is any indication of impairment. If such an indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. In determining the recoverable amount of assets, expected future cash flows are not discounted to their present values. The impairment loss is charged to the income statement unless it reverses a previous revaluation in which case it is charged to equity. Any subsequent increase in recoverable amount is reduced by the amount that has been recognised as depreciation had the write-down or write-off not occurred. Such subsequent increase in recoverable amount is recognised in the income statement unless it reverses an impairment loss on a revalued asset, in which case it is taken to equity.

5.10 Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset this may be specified explicity or implicity, and should be physically distinct or represent substantially all of the capacity of a physically distinct assets. If the supplier has a substantive substitution right, then the asset is not identified;
- (ii) the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- (iii) the Company has the right to direct the use of the asset when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of an asset if either the Company has the right to operate the asset; or the Company designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices.

Recognition and initial measurement

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, whih comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company has elected not to recognise right-of use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payment associated with these leases as an expense on a straight-line basis over the lease term.

As a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfer substantially all of the risks and rewards incidential to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease.

Subsequent measurement

As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment lossess, if any, and adjusted for certain remeasurement of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is any lease modification. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

As a lessor

The Company recognises lease payments received under operating lease as income on a straight-line basis over the lease term as part of "other income".

5.11 Employee benefits

(a) Short-term employee benefits

Wages, salaries, social security contributions, paid annual leave, paid sick leave, bonuses and other benefits are recognised as expenses in the year in which the associated services are rendered to the Group by employees.

(b) Defined contribution plan

The employees of the Company are not unionised.

The Group makes statutory contributions for employees to the Employees Provident Fund. The contributions are charged as an expense to profit or loss in the financial year to which they relate.

5.12 Taxation

Current

Income tax for the financial year is provided on taxable profit at current statutory rate.

Deferred

Accounting profit and taxable profit differ due to, in addition to expenses not deductible, taxable and deductible temporary differences between accounting and tax bases of assets and liabilities.

Deferred tax liabilities in respect of income tax payable in future financial years are recognised for all taxable temporary differences.

Deferred tax assets in respect of income tax recoverable in future financial years for deductible temporary differences, carryforward of unused tax losses and carryforward of unused tax credits are recognised to the extent that it is probable future taxable profit will be available against which they can be utilised.

5.13 <u>Inventories</u>

Inventories and work-in-progress are valued at the lower of cost and net realisable value.

Cost incurred in bringing the following inventories to their present location and condition is determined as follows:

Raw materials, consumables - Purchase cost on a first-in, first-out basis and trading goods

Work-in-progress and finished products

 Cost of direct materials and labour incurred and proportion of production overheads based on normal level of activity

Allowance for impairment is made for all deteriorated, damaged, obsolete and slow-moving inventories.

5.14 Foreign currency conversion

Foreign currency transactions are converted into Ringgit Malaysia at rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the approximate exchange rates ruling at the statement of financial position date. Exchange differences are taken into the profit or loss.

The average closing rates used in the translation of foreign currency monetary assets and liabilities are as follows:

	<u>2022</u>	<u>2021</u>
	RM	RM
AUD 1.00	2.98	3.02
EUR 1.00	4.68	4.71
JPY 1.00	0.03	0.04
SGD 1.00	3.27	3.08
USD 1.00	4.39	4.16
CNY 1.00	0.63	0.65

5.15 Statement of cash flows

The statements are prepared using indirect method.

Cash and cash equivalents comprise cash in hand and at Malaysian licensed banks.

The amount is presented after deducting bank overdraft.

5.16 Financial instruments

A financial instrument is recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised initially at its fair value plus transaction cost, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

Subsequent measurement of the financial instruments in the statement of financial position reflects the designation of the financial instruments. The Company determines the classification of their financial instruments at initial recognition as follows:

Financial assets

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

(i) Loans and receivables

Financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables.

Loans and receivables are classified as current assets, except for those having maturity dates later than 12 months after the reporting date which are classified as non-current.

Subsequent to initial measurement, loans and receivables are measured at amortised cost using effective interest method, except for short-term receivables when the recognition of interest would be immaterial. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

(ii) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and bank balances with Malaysian licensed banks which are unsecured and readily convertible to cash with no significant risk of changes in value below the amounts stated in the financial statements. For the purposes of the statement of cash flows, the amount is presented after deducting bank overdraft, if any.

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of consideration received and any cumulative gain or loss that had been recognised in other comprehensive income are recognised in profit or loss.

Financial liabilities

Financial liabilities are classified as financial liabilities at fair value through profit or loss, financial liabilities measured at amortised cost, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are subsequently measured at amortised cost using the effective interest method other than those categorised as fair value through profit or loss which are subsequently measured at their fair values with the gain or loss recognised in the profit or loss.

A financial liability is derecognised when the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

The Company's financial liabilities include trade and other payables and short-term borrowings and are carried at amortised cost.

5.17 <u>Impairment of financial assets</u>

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment. The Company assesses at each reporting date whether there is any objective evidence that a financial asset is impaired.

Loans and receivables

To determine whether there is objective evidence that an impairment loss on loans and receivables has been incurred, the Company considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis based on similar risk characteristics. Objective evidence of impairment for a portfolio of receivables could include past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, and observable changes in national or local economic conditions that correlate with defaults in receivables.

Where there is objective evidence of impairment, the amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

The carrying amount of the asset is reduced by the impairment loss directly for all loans and receivables with the exception of trade receivables and intragroup debts, where the carrying amount is reduced through the use of an allowance account. When a trade receivable or intragroup debt becomes uncollectible, it is written off against the allowance account.

If in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

5.18 Impairment of other assets

The Company assesses at each reporting date whether there is an indication that an asset, except for inventories and deferred tax assets, may be impaired.

For the purpose of impairment testing, recoverable amount is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash-generating unit ("CGU") to which the asset belongs.

If the recoverable amount of the asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in the profit or loss except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

An impairment loss for an asset is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase.

10. EQUITY

10.1 Equity represents shareholders' ownership interests in the Group and the Company.

It is comprised of:

- 10.1.1 Issued share capital contributions; and
- 10.1.2 Accumulated (losses) sustained by the Group and the Company up to the end of the financial year

employed in the business operations of the Group and the Company as disclosed below:

10.1.1 Share capital

<u> </u>		C 1	C
		Group and Company	
		<u>2022</u>	<u>2021</u>
		RM	RM
Issued and fully paid 85,114,827			
(2021: 85,114,827) ordinary shares	(a) _	94,905,376	94,905,376

There was no movement in the issued paid-up share capital during the financial year.

There is only one class of issued paid-up shares. All these shares rank pari passu in respect of distribution of dividends, repayment of capital, voting and other rights, privileges, conditions and restrictions in accordance with the Constitution of the Company.

23.2 Financial risk management

Financial risk management objectives and policies

The Group and the Company are exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include those involved in credit, liquidity and market risk.

The Group's and the Company's risk management policies seeks to ensure that adequate financial resources are available for the development of the Company's business whilst managing its risk exposures. The Group and the Company operate within clearly defined guidelines that are approved by the Board and it is the Company's policy not to engage in speculative transactions.

Details of the Group's and the Company's key financial risk exposures and the objectives, policies and processes for managing these risks are discussed below:

(a) Credit risk

Credit risk is the risk of a financial loss to the Group and the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's and the Company's exposure to credit risk arises principally from its trade receivables and deposits with Malaysian licensed banks.

Trade receivables

Past due more							
than 60 days	8,474,820	8,971,101					
	9,801,790	10,018,783					

(b) Liquidity risk

Liquidity risk is the risk that the Group and the Company will not be able to meet their financial obligations as and when they fall due. The Group's and the Company's exposures to liquidity risk arises principally from their trade and other payables.

The Group and the Company practise prudent liquidity risk management. The Group and the Company maintain sufficient levels of cash and cash equivalents and availability of credit facilities to meet its working capital requirements.

(c) Market risk

Currency risk

Foreign currency (a currency which is other than the function currency of the Group entities) risk is the risk that the fair value of future cash flow of the Group's and the Company's financial instrument will fluctuate because of the changes in foreign exchanges rates.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's and the Company's exposures to foreign currency fluctuations arises principally from their sale and purchase transactions denominated in foreign currencies in the ordinary course of business.

The Group's foreign exchange policy seeks to allow the Group to manage exposures that arise from trading activities effectively within a framework of control so that the Group is not exposed to unnecessary foreign currency risks. The Group and the Company did not use any derivative financial instrument during the financial year to limit their exposures on foreign currency receivables and payables. Currency risk exposure is reduced via natural hedging, i.e. using their foreign currency collection to peg their foreign currency obligation whenever possible.

24. CAPITAL MANAGEMENT

The Group's and the Company's objective when managing capital is to maintain a strong capital base and safeguard the Group's and the Company's ability to continue as a going concern, so as to sustain future development of the business and maximise shareholder value. The Board of Directors monitors the return on capital, which the Group and the Company define as results from operating activities divided by total shareholders' equity.

There was no change in the Group's and the Company's approach to capital management in the current financial year from that of the previous financial year. The Group and the Company are not subject to any externally imposed capital requirement.

FINANCIAL STATEMENTS for the financial year ended 31 December 2022

STATEMENT BY DIRECTORS

We, Sow Yeng Chong and Leong Kim Foo, being the directors of Kumpulan Belton Berhad, do hereby state on behalf of the directors that in our opinion, the financial statements for the financial year ended 31 December 2022 set out on pages 10 to 62 are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the provisions of the Companies Act, 2016 in Malaysia so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2022 and the results of their operations, changes in equity and cash flows for the financial year ended on that date.

The Board of Directors authorised the financial statements for issue on the date stated below.

On behalf of the Board:

SOW YENG CHONG Director

LEONG KIM FOO

Director

Date: 15 May 2023

STATUTORY DECLARATION

I, Leong Kim Foo (NRIC No. 571227-08-6187), being the director primarily responsible for the accounting records and financial management of Kumpulan Belton Berhad, do solemnly and sincerely declare that the financial statements for the financial year ended 31 December 2022 set out on pages 10 to 62 are to the best of my knowledge and belief, correct and I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act 1960.

Subscribed and solemnly declared by the abovenamed Leong Kim Foo at Kuala Lumpur in Wilayah Persekutuan this day of 15 May 2023

LEONG KIM FOO Director

Before me,

Commissioner for Oaths
